

Dear Room 6,

November was a busy month for us with our annual Harvest Festival. Children enjoyed making their own Turkey sandwiches and working together to make a very special Stone Soup. They eagerly participated in cutting vegetables and mixing the ingredients while making the soup. In keeping with the spirit of the season, we talked about what each of us were grateful for. For our academic work, we learned about the parts of a bird including a turkey, parts of a leaf, and fruits and vegetables.

December is going to be another exciting and busy month for us. Children are already embracing the holiday season by practicing their songs for our Holiday Show! Please mark your calendar for our very special Holiday Show on Thursday, December 16 at 10:00 am. In addition to singing their hearts out, children are working very hard on a secret holiday surprise to bring home!

This month we will be learning about the parts of a tree and how some trees adapt to the cold winter by hibernating. We will continue our journey through Europe and look at the special landmarks. We will also work on winter themed artwork. I wish you all happy holidays and I look forward to working with all your beautiful children in 2022.

16th Thursday- Holiday show

17th Friday -Pajama Day

20th to 31st -Winter break

Thank you,

Mrs. Enoka
