

Dear Room 6 Parents,

It's hard to believe that we're already done with one month in 2022!

In January the children enjoyed making snowmen, snowflakes, and learning all about Antarctica. We also learned about the Lunar New Year celebrations and made lanterns, masks, and dragons to celebrate it.

In the month of February, we are going to start our journey of learning through the biggest continent of all, Asia. We will begin with Southeast Asia and cover Japan, Korea, China, and Vietnam. The children will explore the food and cultures of these regions and learn about their flag and about the people.

For the Botany lesson the children will be introduced to the parts of a flower. We will dissect a flower and look through a magnifying glass to see what is inside.

For zoology, the children will learn about the parts of a tortoise.

Our artist of the month is going to be the great Japanese painter, Katsushika Hokusai. The Children will replicate the famous cherry blossom painting in class alongside the lesson.

With February being the month of love, we will also be making some valentines crafts for children to take home to their valentines.

Thank you for your continued support.

Best Regards,

Mrs. Enoka
